PROJECTS

Interactive Digital Portfolio Website [↗](#)

Technologies: HTML5, CSS3, JavaScript

Developed a fully responsive portfolio website to showcase skills, projects, and certifications. Implemented smooth navigation (sticky header, scroll-spy) and animated skill bars using JavaScript. Designed clean, modern UI with reusable CSS components and responsive layouts. Added interactive features such as reveal animations and form validation for improved user experience. Deployed the project on GitHub, ensuring maintainable and scalable code.

Java GUI-Based Application

Student Grade Tracker

Created a Java application to manage and analyze student grades using arrays and ArrayLists for dynamic data handling. Implemented features to input grades, compute average, highest, and lowest scores, and generate summary reports. Designed a user-friendly interface (console or GUI) to display and update student records efficiently.
